

**MSCI KLD 400 Social Index
out-performs S&P 500**

April 1990 – March 2016

The **MSCI KLD 400** (formerly the **Domini Social Index / KLD 400**) was created to be an apples-to-apples comparison to the S&P 500 Index – but with a broad range of social and environmental screens incorporated.

For more than 25 years it has outperformed the S&P 500.

This long-term comparison demonstrates that the use of SRI/ESG criteria has not resulted in lower returns.*
